

Advanced Burn Life Support

The Advanced Burn Life Support (ABLS) Provider Course is an eight-hour course for physicians, nurses, mid-level practitioners, therapists, paramedics and EMTs. The course provides guidelines in the assessment and management of the burn patient during the first 24 hours post injury. Following a series of lectures, case studies are presented for group discussions. An opportunity to work with a simulated burn patient to reinforce the assessment, stabilization, and the American Burn Association transfer criteria to a Burn Center will be given. Final testing consists of a written exam and a practical assessment return demonstration.

The application is posted on this website. Please download, complete and either FAX to 406.444.3044 or email to Don McGiboney dmcgiboney@mt.gov or Dayle Perrin dperrin@mt.gov.

A completed application and \$100.00 deposit is required to secure your place in the course. Course deposit is returned upon completion of the course. Complete instructions are on the application.
